SHIELDS L. DALTROFF
VICE PRESIDENT
ELECTRIC PRODUCTION

March 20, 1984

Docket Nos. 50-277
50-278

Mr. Darrell G. Eisenhower
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Sir:

This letter is to advise you that Philadelphia Electric Company is requesting a change from the originally scheduled PBAPS emergency preparedness exercise dates of June 1984 and 1985.

As a result of consensus reached among the participants at the FEMA Region III scheduling conference for CY84 and CY85 RERP exercises held January 10, 1984, PECO's PBAPS exercise was rescheduled. Correspondence relating to that meeting is attached. Participants in the meeting included Nuclear Regulatory Commission, Federal Emergency Management Agency, Pennsylvania Emergency Management Agency, Maryland Emergency Management and Civil Defense Agency. The proposed exercise schedule exceeds the exercise frequency as set forth in 10CFR 50, Appendix E, Section IV F and NUREG-0654/FEMA REP 1-Rev. 1. However, we believe the proposed schedule of October meets the needs of NUREG-0654/FEMA REP 1-Rev. 1 by providing for an exercise under various weather conditions and would provide for more variety in the emergency planning parameters that would be used by the on-site and off-site emergency response organizations. The 1982 and 1983 annual exercises were conducted under summer conditions.

Additionally, the extension of time to complete the exercise will allow inclusion in Maryland off-site plans of recently received FEMA comments. In Pennsylvania, municipal

11

plans are undergoing significant revision which needs to be completed for a proper exercise to take place. Lancaster and York Counties are also preparing emergency plan revisions based upon their recent TMI exercise. An October exercise date would provide more time to incorporate these revisions and corrective actions.

Furthermore, PECO has proposed an alternate EOF location for PBAPS. We are presently awaiting approval of this facility. An exercise in June of 1984 would not provide sufficient time to make ready that facility and test its adequacy.

Therefore, PECO requests an exemption from the above stated regulations to allow extension of the time of the annual exercise from June to October 1984. If you have any questions regarding this matter please contact us.

Very truly yours,
