CERTIFIED MAIL

Mr. William O. Miller, Chief
License Fee Management Branch
Office of Administration
U. S. NUCLEAR REGULATORY COMMISSION
Washington, D. C. 20555

Dear Mr. Miller:

DOCKET NO. 50-266
LICENSE AMENDMENT APPROVAL FEE
POINT BEACH NUCLEAR PLANT, UNIT 1

We have received your letter dated March 1, 1984 which rejects the arguments advanced in our letter dated December 5, 1983 concerning the appropriateness of 10 CFR 170.22 fees provided for review of those licensing actions surrounding the approval of the steam generator replacement at our Point Beach Nuclear Plant Unit 1. Although we maintain that your fee determination for these actions is based on a rather arbitrary, and certainly last minute, decision by the Commission staff that a negative declaration on environmental impact could not be made, we have no recourse but to remit the fees as requested in your letter.

Accordingly, you will be pleased to find enclosed a check in the amount of \$1,200 which represents the balance of payment for the Class V fee determined to be appropriate by your office.

Very truly yours,

Vice President-Nuclear Power

C. W. Fay
