Mr. Darrell G. Eisenhut, Director  
Division of Licensing  
U.S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Eisenhut:

Subject: Qualification of Non-Destructive Examination Personnel  
Oyster Creek Nuclear Generating Station  
Docket No. 50-219

GPU Nuclear will be adopting the provisions of code cases N-341 and N-356 that apply to non-destructive examination (NDE) personnel qualification. We will be increasing the time period for requalification from three years to five years. This change in our program is effective at this time since both code cases have been accepted by the NRC staff.

In the event that any comments or questions arise, please contact Mr. M. Laggart of my staff at (609) 971-4643.

Very truly yours,

  
P. B. Fiedler  
Vice President and Director  
Oyster Creek
