Perry Nuclear Power Plant
Docket Nos. 50-440; 50-441 ^A
I. E. Bulletin 83-07;
83-07 Supplements 1 and 2.

Dear Mr. Keppler:

In accordance with your request, the following information is provided in response to I. E. Bulletin 83-07 and Supplements 1 and 2 describing apparently fraudulent products sold by Ray Miller, Inc.

Initial contact with vendors on our qualified bidders list who supply Ray Miller Inc. type products indicates that PNPP has only one application of Ray Miller products, which was used in a non-safety related application.

Although we are confident we have not received any products from Ray Miller Inc. in safety related applications, we are continuing our investigative effort. We expect this to be completed by December 1984.

If you have any questions, please feel free to call.

Very truly yours,

Murray R. Edelman
Vice President
Nuclear Group
