Mr. Carlton Kammerer, Director  
Office of Congressional Affairs  
Nuclear Regulatory Commission  
1712 A Street, NW  
Washington, D.C. 20555

Dear Mr. Kammerer:

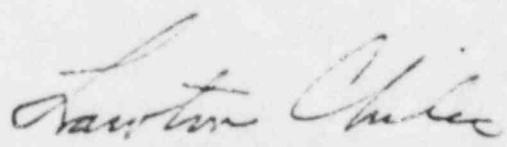

I have recently received the enclosed correspondence regarding a matter involving your agency, and because of my desire to be responsive to all inquiries, I would appreciate having your comments and views.

Your early consideration of this matter will be appreciated. If convenient, I would like to have your reply in duplicate and to have the enclosure returned.

Please refer to John Paskavitch in your reply.

With kindest regards, I am

Most sincerely,

  
LAWTON CHILES

SENATOR LAWTON CHILES  
SENATE OFFICE BUILDING  
WASHINGTON, D.C. 20510

DEAR SENATOR CHILES:

IF THERE IS ONE STATE OUT OF CONTROL IT IS FLORIDA AND  
IF YOUR STATE GOES DOWN THE TUBE, THEN COMMUNISM WILL BURY  
US.

FOR EXAMPLE, THE WORKING CLASS IN YOUR STATE IS PRICED  
OUT OF THE HOUSING MARKET. THIS IS MY SECOND WINTER HERE  
AND THE PRICE TO BUILD OUR HOUSE TODAY HAS DOUBLED. IF  
LOW COST HOUSING ISN'T PROVIDED SOON, YOUR JAILS, DIVORCE RATE,  
DRUG ABUSE WILL INCREASE DRAMATICALLY. YOUR JAILS ARE OVER  
CROWDED AND CAPITAL PUNISHMENT IS NOT THE ANSWER.

SO WHEN REAGAN SPEAKS OF NATIONAL DEFENSE PRIORITIES HE IS  
SUPPORTING THE INDUSTRIAL MILITARY COMPLEX, OUR BIGGEST THREAT.

PRESENTLY I AM CONCERNED ABOUT EDB - TANKS IN DRINKING  
WATER AND FOOD. WHY SHOULD FLORIDA BE THE ONLY STATE TO RECEIVE  
EDB TANKED FOOD OFF IT SHELVES? WHERE IS REAGAN ON THIS ISSUE?

PLEASE SEND ME THE LATEST ENVIRONMENTAL IMPACT STATEMENT  
ON CONCENTRATIONS OF SR 90-Co-137-T131 NEAR FLORIDA'S  
3 NUCLEAR POWER PLANTS. THIS INFORMATION IS AVAILABLE TO YOU BY  
THE U.S. NUCLEAR REGULATORY COMMISSION.

I AM COMPARING FLORIDA VS CONNECTICUT'S MORTALITY RATES  
NEAR NUCLEAR PLANTS.

NO NUKES

*VENICE GAZETTE*  
**Florida's problems**

Editor: 4.30.83

After spending my first winter in South Venice in our brand new home, I found the Florida problems in severity in this order:

- Polluted drinking water.
- Radiation pollution from phosphate mining.
- Unsafe State Road 775 and U.S. 41
- Polluted homesteads — so many homes were junkyards.
- Sand fills out of control.
- Storm pollution.
- Shopping plaza pollution.

- County graffiti.
- Drug, alcohol.
- Fat pollution. I have never seen so many fat men and women.
- Police state. A state cannot outlaw political ideas or teach against certain ideas. Reagan used Florida pulpit for his politics.

- Very poor educational standards, all grades.
- Tailgating by rednecks.
- Yard pollution by free newspapers. I counted 150 Sun Coast Times near one house.
- Temix in drinking water, oranges, grapefruit and vegetables.
- Pesticide pollution.
- Drainage in South Venice is a major problem.
- Septic tanks are abused by

too many people living on one site.

- Flippant county and state workers in the South County Annex drove me up a wall when I first got there.

**JOHN PASKAVITCH**  
South Venice and  
Brooklyn, Conn.

## **No more taxes**

Editor:

I read in a newspaper on April 22 as follows:

One senator said he doesn't see "any chance" that Congress will vote tax increases for the coming fiscal year. He said, "The wiser policy would be to enact increases that would begin to take effect in fiscal 1986."

No doubt he feels that the

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

MAR 07 1984

The Honorable Lawton Chiles  
United States Senator  
Federal Building  
Lakeland, Florida 33801

Dear Senator Chiles:

I am writing in response to your letter of February 8 to Mr. Carlton Kammerer of NRC, in which you asked our assistance in responding to a letter you had received from Mr. John Paskavitch. Mr. Paskavitch asked that you send him the latest Environmental Impact Statement on concentrations of Strontium 90, Cesium 137, and Iodine 131 near Florida's three nuclear power plants (Crystal River, St. Lucie, and Turkey Point).

Each nuclear power plant license includes a requirement that radioactive releases be monitored and reported to the NRC. These data are then summarized and condensed into annual reports. I am enclosing copies of two reports for the most recent year for which the summaries are complete. Included in these reports are the power plants about which Mr. Paskavitch inquired.

Reports containing the detailed monitoring data are available for review in the Local Public Document Room for each of the three projects. I have enclosed a list of the addresses of those Public Document Rooms.

I hope that these reports are adequate for Mr. Paskavitch's needs. We are returning his letter as you requested.

Sincerely,

(Signed) T. A. Rehm
