Mr. Dennis Crutchfield, Chief
Operating Branch #5
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Crutchfield:

Subject: Oyster Creek Nuclear Generating Station
Docket No. 50-219
Changes to Distribution of NRC
Correspondence Sent to GPU Nuclear

The purpose of this letter is to request that certain changes be made to the distribution used by the NRC when sending correspondence to GPU Nuclear, specifically Oyster Creek-related material.

As you are aware, earlier this year Mr. Robert Arnold left the position of President, GPU Nuclear. His successor is Mr. Philip R. Clark; please see that all NRC correspondence sent to the President, GPU Nuclear is now addressed to Mr. Clark. As before, if the NRC has correspondence pertaining specifically to Oyster Creek, this should be sent to the Vice President and Director, Oyster Creek.

One other item should be mentioned. There have been some personnel changes within the Licensing Department. Please delete Mr. J. Knubel's name from the "cc" listing as Manager, BWR Licensing and in the future list only the titles Manager, BWR Licensing and Oyster Creek Licensing Manager without names.

Should you have any questions, please call me or the Oyster Creek Licensing Manager at (609)971-4643.

Very truly yours,

J. R. Thorpe
Director, Licensing & Regulatory Affairs
