

Docket No. 50-346

License No. NPF-3

Serial No. 1034

March 23, 1984

RICHARD P. CROUSE
Vice President
Nuclear
(419) 259-5221

Director of Nuclear Reactor Regulation
Attention: Mr. John F. Stolz
Operating Reactor Branch No. 4
Division of Operating Reactors
United States Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Stolz:

On December 2, 1983 Toledo Edison submitted an exemption request (Serial No. 1005) from the requirements of 10 CFR 50.54 (m)(iii) concerning Licensed Operators Staffing at Nuclear Power Units, for the Davis-Besse Nuclear Power Station Unit No. 1. On March 13, 1984 Toledo Edison participated in a conference call with your Mr. Al DeAgazio and Mr. Larry Crocker. As a result of that call Toledo Edison is submitting the following information to support our exemption request:

The Davis-Besse Station Superintendent will issue a Standing Order directing SRO license holder coverage of the Control Room Panel Area for more than half of any shift. The SRO license holder will also be directed to be present in the Control Room Panel Area whenever he is not required to be in the Shift Supervisor's office or in the plant to perform his duties.

This additional information is provided to support our exemption request. This letter and our original exemption request should be considered together and, Toledo Edison feels, should provide sufficient justification to grant the requested exemption.

Very truly yours,

RPC:RFP:lah
