Docket No. 50-334, License No. DPR-66  
IE Bulletin 83-08

Gentlemen:

We have completed our review of IE Bulletin 83-08, "Electrical Circuit Breakers with an Undervoltage Trip Feature in use in Safety-Related Applications Other Than the Reactor Trip System" and the safety-related circuit breakers at Beaver Valley 1.

No safety-related circuit breakers with a UVTA, other than the reactor trip breakers, were identified as being installed or planned for installation at our facility.

The manpower expenditure for this Bulletin was approximately 56 manhours for the review and 3 manhours for report preparation.

If you have any questions concerning this response, please contact my office.

Very truly yours,

J. J. Carey  
Vice President, Nuclear
