Facility Operating License No. DPR-28, dated May 26, 1983
(c) Letter, USNRC to VYNPC, NVY 83-150, dated June 27, 1983
(d) Letter, VYNPC to USNRC, FVY 83-57, dated June 15, 1983

Subject: Withdrawal of Proposed Change No. 115, Reactor Coolant System
Leakage

Dear Sir:

By Reference (b) we submitted a request to amend our Operating License with respect to Reactor Coolant System leakage criteria. The purpose of this letter is to withdraw the subject amendment request from consideration. The system leakage provisions called for in the amendment request were the subject of an NRC Confirmatory Order, dated June 27, 1983 [Reference (c)], based on commitments we had made in Reference (d). The Reactor Coolant System leakage provisions, detailed in Reference (c), have been in place since startup from our 1983 refueling outage.

Should you have any questions in this matter, please contact us.

Very truly yours,

VERMONT YANKEE NUCLEAR POWER CORPORATION
