Docket No. 50/395  
Operating License No. NPF-12  
Physical Security Plan

Dear Mr. O'Reilly:

Enclosed are supplemental pages to Amendment 10 to the Virgil C. Summer Nuclear Station Physical Security Plan. These pages reflect changes requested by Region II and should replace those pages in question from the original submittal of Amendment 10.

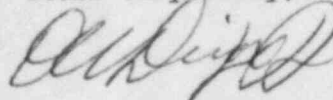

Steps have been taken to change applicable procedures to ensure that the Secondary Alarm Station (SAS) is notified of reactor building hatch alarms in the event of CRT failure in SAS, as discussed with Ms. Cynthia Perry on March 20, 1984.

These changes are scheduled to be completed by May 1, 1984.

The enclosed pages contain "Safeguards Information" and should be handled accordingly.

If there should be any questions, please contact us at your convenience.

Yours very truly,

O. W. Dixon, Jr.
