SUBJECT: Beaver Valley Power Station - Unit No. 2
Docket No. 50-412
S.E.R. Outstanding Issues Schedule

Gentlemen:

Attached is a proposed schedule of written responses to outstanding issues presented in Table 1.2 of the Draft Safety Evaluation Report. This schedule is provided in response to your transmittal letter dated March 1, 1984.

Mr. D. G. Eisenhower's letter dated May 4, 1983, indicated that the draft SER would provide the basis for a series of meetings designed to close out open items. Having received a draft SER which provides 45 percent of all sections, it is not possible to conduct an efficient meeting process without being informed of the open items affecting the missing sections. It is essential that branches that have not provided input to the draft SER provide that input at least 30 days prior to each meeting. Please provide a schedule for issuing the remaining draft SER sections in support of the meetings. If we are to adequately support the milestone of July 27, 1984, for staff technical input to the Division of Licensing as shown on the Beville schedule, your proposed schedule is required by April 30, 1984.
