Dear Mr. O'Reilly:

Re: Turkey Point Units 3 and 4
Docket Nos. 50-250 and 50-251
IE Bulletin 83-08

Florida Power & Light has reviewed IE Bulletin 83-08 (Electrical Circuit Breakers With an Undervoltage Trip Feature in Use in Safety-Related Applications Other Than the Reactor Trip System). In response to the bulletin FPL reviewed all safety-related circuit breakers at Turkey Point Units 3 & 4 and found no breakers, other than reactor trip switchgear, which utilize an undervoltage trip attachment.

This completes FPL's action on this bulletin. Should you or your staff have any questions on this information, please contact us.

Very truly yours,
