Docket No. 50-293

Proposed Change to Fire Protection  
Technical Specifications

Dear Sir:

In Boston Edison's (BECO) letter of December 28, 1983, BECO committed to submit a consolidation of its previous submittals on fire protection made during 1983. This package would assimilate all previous sub-packages and incorporate any refinements identified by the assimilation and review process.

Pursuant to 10CFR50.90, BECO hereby proposes the attached modifications to Appendix A of Operating License No. DPR-35 in response to that commitment.

BECO has identified where this package varies from previous submittals. However, to avoid possible confusion we recommend that you use this last submittal for your review.

Very truly yours,

*W.D. Harrington*
