RE: Perry Nuclear Power Plant
Docket Nos. 50-440; 50-441
Lubricating Oil System Defect in
Standby Diesel Generators
[RDC 24(81)]

Dear Mr. Keppler:

Our letter to you dated March 6, 1984, stated that we anticipated filing our next report on modification of the turbocharger lubricating oil system by April 15, 1984, subsequent to our evaluation of Transamerica Delaval's new recommended corrective action.

However, new information submitted March 22, 1984, to the Director, Office of Inspection and Enforcement, U.S. NRC, by Transamerica Delaval, Inc., indicates that their recommendation of corrective action will now be complete by April 16, 1984. We anticipate filing of our next report on this subject two weeks subsequent to our receipt of Transamerica Delaval's recommended corrective action.

Sincerely,

M. R. Edelman
Murray R. Edelman
Vice President
Nuclear Group
