SUBJECT: IE Bulletin No. 83-08:  
Electrical Circuit Breakers With  
An Undervoltage Trip Feature in  
Use In Safety-Related Applications  
Other Than The Reactor Trip System

Dear Dr. Murley:

Please be advised that the Indian Point 3 facility does not employ the undervoltage trip feature as discussed in IE Bulletin 83-01 or 83-04, in any safety related circuit breakers other than the reactor trip breakers. Based on this finding no further action is required by the Authority for the Indian Point facility on IE Bulletin 83-08.

Should you or your staff have any questions regarding this matter, please contact Mr. J. Schivera of my staff.

Very truly yours,

  
John C. Brons  
Resident Manager
