I.E. Bulletin No. 83-07

Dr. Thomas E. Murley, Administrator
Region I
Office of Inspection & Enforcement
U. S. Nuclear Regulatory Commission
631 Park Avenue
King of Prussia, PA 19406

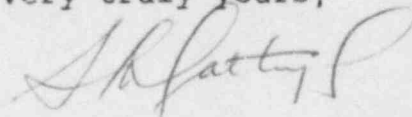

Dear Dr. Murley:

Your letter dated July 22, 1983, forwarded I. E. Bulletin No. 83-07 "Apparently Fraudulent Products Sold by Ray Miller, Inc.", informing power reactor facilities that fraudulent products may have been sold to nuclear industry companies by Ray Miller, Inc. In the Bulletin, licensees were requested to determine where suspect material, if any, had been installed in plants. If such material was installed, licensees were directed to evaluate the safety significance. Licensees were also requested to tag or dispose of the suspect material, if any, not yet installed.

Our review has determined that no suspect materials have been purchased from Ray Miller, Inc., either directly or indirectly for use at Peach Bottom and that no such materials are installed or are planned to be installed in safety-related systems at Peach Bottom. Therefore, no further action is required by Philadelphia Electric Company with respect to Peach Bottom under I.E. Bulletin No. 83-07.

If you have any questions, please do not hesitate to contact us.

Very truly yours,

cc: A. R. Blough, Site Inspector
