Re: Indian Point Unit No. 2
Docket No. 50-247

Dr. Thomas E. Murley, Regional Administrator
Region I
U. S. Nuclear Regulatory Commission
631 Park Avenue
King of Prussia, Pa. 19406

Dear Dr. Murley:

This letter is in response to IE Bulletin No. 83-08 "Electrical Circuit Breakers With An Undervoltage Trip Feature In Use In Safety-Related Applications Other Than The Reactor Trip System." As requested in that bulletin, we have reviewed the safety-related circuit breakers in use at Indian Point Unit No. 2 to identify those applications where undervoltage trip attachments (UVTA's) are employed. Other than those employed in the reactor trip system, safety-related electrical circuit breakers in use at Indian Point Unit No. 2 do not employ undervoltage trip attachments.

Should you or your staff have any questions, please contact us.

Very truly yours,

cc: U. S. Nuclear Regulatory Commission
