U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Re: Docket No. 50-275, OL-DPR-76  
Docket No. 50-323  
Diablo Canyon Units 1 and 2  
IE Bulletin No. 83-08 - Electrical Circuit Breakers  
With An Undervoltage Trip Feature

Gentlemen:

PGandE has reviewed IE Bulletin No. 83-08, "Electrical Circuit Breakers With An Undervoltage Trip Feature In Use In Safety-Related Applications Other Than The Reactor Trip System." Diablo Canyon Units 1 and 2 do not use any of the subject circuit breakers, including Westinghouse types DB and DS, and General Electric type AK-2. It was determined that there are no similar applications using the undervoltage trip feature.

Kindly acknowledge receipt of this material on the enclosed copy of this letter and return it in the enclosed addressed envelope.

Subscribed to in San Francisco, California this 4th day of April, 1984.

Respectfully submitted,

Pacific Gas and Electric Company
