RECEIVED
PRODUCTION... 50-142

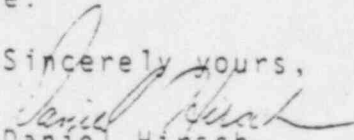

Dear Mr. Smith:

Enclosed please find a compilation of certain materials related to the allegations under investigation by your office regarding potential misrepresentations by NRC Staff as to sabotage protection of non-power reactors.

We intend to send additional material in the next few days.

Because we are uncertain as to the current status of your investigation and do not wish to interfere with your investigatory process, we are delaying serving the enclosed material on any but the Board until we get a go-ahead from you that such service will not interfere. As soon as we hear from you, we shall complete service.

Sincerely yours,

Daniel Hirsch
President
