RE: Perry Nuclear Power Plant
Docket Nos. 50-440; 50-441
Location of Governor Lube Oil
Cooler - Standby Diesel Generator
[RDC 45(82)]

Dear Mr. Keppler:

Our letter to you dated April 30, 1984, indicated that Governor Lube Oil Cooler relocation was complete for both Units and that associated tubing rework was in progress, with completion anticipated by June 29, 1984, for Unit 1 and September 1, 1984, for Unit 2.

Tubing rework has been completed for Unit 1 with site acceptance pending submittal and review of contractor documentation. This is expected to be complete by August 15, 1984. Completion of tubing rework for Unit 2 is still scheduled for September 1, 1984.

Sincerely,

M. R. Edelman
Murray R. Edelman
Vice President
Nuclear Group
