

Federal Emergency Management Agency

Washington, D.C. 20472

JUL 16 1984

MEMORANDUM FOR: Edward L. Jordan
Director, Division of Emergency Preparedness
and Engineering Response
Office of Inspection and Enforcement
U.S. Nuclear Regulatory Commission

FROM: *Richard W. Krimm*
Richard W. Krimm
Assistant Associate Director
Office of Natural and Technological
Hazards Programs

SUBJECT: FEMA Supplemental Finding - Waterford III

Attached is the resolution of the last unresolved offsite planning issue related to the Waterford III Nuclear Power Station. Four offsite planning issues were specified in the Atomic Safety and Licensing Board's partial initial decision of November 3, 1982, as amended by its Memorandum and Order dated December 12, 1982.

The State of Louisiana has provided Letters of Agreements from the support parishes which identify vehicles and drivers to be used for implementing the evacuation plans.

MEMORANDUM FOR: ROBERT S. WILKERSON, CHIEF, TECHNOLOGICAL HAZARDS DIVISION
OFFICE OF NATURAL AND TECHNOLOGICAL HAZARDS - SL-NT

ATTENTION : Gloria Joyner, Project Officer
Field Operations Branch

FROM *[Signature]* Dell Greer, Chief
Natural and Technological Hazards Division

SUBJECT : FEMA Supplemental Findings - Waterford III

Reference Region VI memorandum to you, same subject, dated May 8, 1984.

The only issue that was yet to be resolved in our May 8, 1984, memorandum was Issue 2, which required letters of agreements with the support parishes for vehicles and drivers necessary to implement the evacuation plans.

FEMA Region VI has now received these letters of agreement from Louisiana, and this should resolve the last issue as specified in the ASLE partial initial decision of November 3, 1982, as amended by memorandum and order, dated December 12, 1982.
