Dear Mr. Keppler:

With your cooperation in an effort to coordinate emergency planning between yourself and LaSalle County Station, as well as meeting the requirements of the United States Nuclear Regulatory Commission, we would like to:

1. Offer a one day Radiological Training Session to members of your organization with respect to your role in the emergency plan.
2. Invite you and your staff to visit our station, discuss the emergency plan, and familiarize yourselves with the plant facilities.

If you wish to take advantage of a familiarization visit, the Radiological Training Session, or if you have any questions about our emergency plan in general, please feel free to contact Joe Lewis of my staff at (815) 357-6761, ext. 237.

Thank you for your cooperation and assistance.

Sincerely,

G. J. Diederich  
Station Superintendent
