V. S. BOYER
SR. VICE PRESIDENT
NUCLEAR POWER

July 23, 1984

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Harold:

Construction of Limerick No. 1 Unit is essentially complete and the pre-operational test program is well along toward completion. We appreciate the efforts of the NRC staff to complete the review of outstanding items so that all sign offs will be complete by the scheduled fuel load date of September 15, 1984.

We are proud of the Limerick project and would be pleased to have you visit the plant at your convenience during the month of August 1984.

Sincerely,

Vincent Boyer
