Department of Health and Environmental Control  
2600 Bull Street  
Columbia, SC 29201

Re: Final Supporting Documents for Application Amendment of  
SCRML No. 144

Dear Mr. Shealy:

We have previously furnished you with the Independent Facility Radiological Survey and a revised Attachment 4, "Radioactive Materials Inventory" on January 27, 1984. We are now submitting the remainder of the documentation outlined in our letter of November 10, 1983 which transmitted the reference Application and some additional revisions to the Application. The enclosures are as follows:

- 1) "A Special Radiological Survey of Selected Sites in the Vicinity of BNFP October 1983 and January 1984," EMP-AGNS-84-1 by John M. Palms, Ph.D., et al. This report describes the environmental studies made both on-site and off-site and confirms that the BNFP has not contributed any measurable radioactive contamination to the environment.
- 2) A revised RHA-200 form showing Mr. Christian T. Nielsen as the Company representative and the Radiation Safety Officer as Dr. Michael T. Ryan.

The substitution of Mr. Nielsen has been caused by my retirement effective March 30, 1984. Also attached is a brief description of activities at BNFP showing that no use of radioactive materials is involved (Attachment 3 of the revised form).

The substitution of Dr. Ryan has been caused by the transfer of the previous RPO, Mr. Jim Purvis by CNSI who is under contract to provide radiological surveillance and assistance to AGNS. A revised Attachment No. 2 of the form, which is a brief description of the duties of CNSI and a copy of Dr. Ryan's resume, is also included.

- 3) A copy of CNSI Procedure No. S20-AD-011, Rev. 0 which outlines the procedures to be used in implementing the contract is also enclosed for your information and review.

Mr. Heyward Shealy

March 27, 1984

As to security, we have hired Sizemore Security to perform 24-hour-per-day, 7-day-per-week security services. The Sizemore Security guard will, among other duties, perform the quarterly security inspections to the site described in Enclosure No. 2. This guard also controls the gate across Osborn Road blocking access to the site.

All future official correspondence should be addressed to Mr. Nielsen at the following address:

Mr. Christian T. Nielsen, Vice-President  
Allied Chemical Nuclear Products, Inc.  
c/o Allied Corporation  
P. O. Box 3000-R  
Morristown, NJ 07960

Telephone: (201) 455-3367

We trust that these documents will enable you to complete your review of our Application for Amendment of SCRML No. 144 to a possession only license. At such time as you wish to conduct your inspection, please contact Mr. Nielsen so that the necessary arrangements can be made for your visit.

Sincerely yours,

  
J. A. Buckham
