Re: Commonwealth Edison Company
 (Byron Nuclear Station, Units 1 and 2)
 Docket Nos. 50-454 and 50-455

Dear Mike:

This morning we met concerning my discovery requests to you of May 9.

You have indicated your intention to make objections based on relevancy grounds to, inter alia, Document Requests 18 through 36 (and portions of 37 and 38) and Interrogatories 13 through 23 and 25 through 26. As I understand your position, because these relate to neither the reinspection program nor Systems Control Corporation, they are, until further order of the Licensing Board, beyond the scope of the remanded hearings.

It is clear that we will not know the precise scope of the remanded proceedings until some time after May 30. Therefore, in order to avoid any delay, I urge you to begin gathering the requested documents, and the information necessary to answer the interrogatories, in spite of your present objection. In this way, no unnecessary delay will result should the Board decide to include these issues.

We also agreed that I will drop Document Request 17 on your representation that this program is in effect only at Braidwood and not Byron.

Finally, you agreed to add to Document Request 37 those documents referred to in responding to Interrogatory 12. This was an inadvertent omission on my part.

I look forward to our Thursday meeting to discuss our varying views on the scope of the remanded hearings.

Very truly yours,
