Monticello Nuclear Generating Plant E-5979      Docket Number 50-263

Regulatory      File Cy.

AMENDMENT NO. 28

Received w/Ltr Dated 7-21-70

TO

APPLICATION FOR AEC CLASS 104b OPERATING  
LICENSE FOR A UTILIZATION FACILITY

Amendment No. 28 requests extension of the latest date for  
completion of the facility to February 1, 1971.

Construction Permit No. CPFR-31 as amended specifies the latest  
date for completion of the facility as August 1, 1970. The facility  
will not be completed for full power operation by this date because  
an extended strike by the sheetmetal workers has prevented completion  
of the standby gas treatment system as well as certain heating and  
ventilating facilities.

This Amendment to the application contains no restricted or other  
defense information.
