Subject: Docket No. 50-482: Proposed Rule - 10 CFR Part 51

Gentlemen:

The purpose of this letter is to submit an endorsement of comments provided to the Nuclear Regulatory Commission by Nuclear Management and Resources Council, Inc. (NUMARC). The proposed Rule establishes new requirements for environmental review of applications to renew operating licenses for Nuclear Power Plants. A draft Regulatory Guide, a draft Generic Environmental Impact Statement, a draft Environmental Review Plan, and a draft Regulatory Analysis were published concurrently. Wolf Creek Nuclear Operating Corporation considers NUMARC's comments on all these documents to be valid and appropriate.

If you have any questions concerning these comments, please contact me or Mr. S. G. Wideman of my staff.

Very truly yours,

Bart D. Withers
President and
Chief Executive Officer
