Regulatory Docket File

Mr Victor Stello, Director
Division of Operating Reactors
U S Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr Stello:

MONTICELLO NUCLEAR GENERATING PLANT
Docket No. 50-263 License No. DPR-22

Design Report for Redundant Reactor
Building Crane

Attached are forty copies of a report describing a modification which will provide redundant lifting features on the Monticello Reactor Building Crane. The report is being submitted for your review to insure that the crane design will be acceptable for use in handling the spent fuel shipping cask.

Since it is anticipated that fabrication of the new trolley will begin in January 1977, your early attention to this matter is requested. Representatives from our Company will meet with members of your staff should you find it necessary.

Yours very truly,

L. O. Gray
