Region II
Attn: Mr. James P. O'Reilly, Regional Administrator
101 Marietta Street, NW, Suite 2900
Atlanta, Georgia 30303

Dear Mr. O'Reilly:

BELLEFONTE NUCLEAR PLANT UNIT 1 - SUPPLEMENTAL RESPONSE TO DEVIATION
- 50-438/83-10-01, 50-439/83-10-01 - FIRE PROTECTION SYSTEMS NONCONFORMANCE
WITH NFPA CODE

In response to R. C. Lewis' letter dated May 23, 1983, report numbers
50-438/83-10, 50-439/83-10 concerning activities at the Bellefonte Nuclear
Plant which appeared to deviate from commitments to the Commission. TVA
had submitted a final response on July 7, 1983 and a revised response on
August 26, 1983. Below is our supplemental response to deviation
50-438/83-10-01, 50-439/83-10-01.

As discussed with NRC-OIE Inspectors Linda Watson on November 9, 1983 and
Paul Fredrickson on November 28, 1983, the date of October 31, 1983, for
the completion of corrective actions for design was not met. These actions
were completed on November 16, 1983. In addition, the date of January 15,
1984 for completion of installation of a flange enclosed waste cone in the
relief valve discharge line will not be met due to a recent reassessment of
the construction schedule for these activities. Site installation is now
scheduled for completion by November 14, 1985.

If you have any questions concerning this matter, please get in touch with
R. H. Shell at FTS 858-2688.

To the best of my knowledge, I declare the statements contained herein are
complete and true.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
