Documentation of Core Analysis System

We recently approached our Monticello Project Manager, Mr R P Snaider, to discuss publication of a topical report describing the Core Analysis System (CAS) used by Northern States Power Company. At his suggestion, we are formally requesting a meeting with the appropriate members of your staff to discuss documentation of CAS. In particular, we would like to discuss the content, format, application, updating, benchmarking and NRC review and approval of such a document. We will look forward to being contacted by your staff regarding detailed meeting arrangements.

Yours very truly,

L O Mayer, PE
 Manager of Nuclear Support Services
