CONT. BLOCK 23: Proposed Corrective Action

Discrepancies identified on RA-00134 were corrected at the time of the evaluation. The FDDL was updated to reflect the accurate distribution for subcontracts document control. Additions and deletions to the FDDL are made on a daily basis and verified the same day. Any errors should be discovered during this verification process. Because of these discrepancies, FDDL procedures were reviewed by the undersigned and her supervisor.

I have reviewed the procedures for changing the FDDL and understand their implementation.
