Subject: Vermont Yankee 10CFR 140.21 Submittal:
Licensee Guarantees of Payment of Deferred Premiums

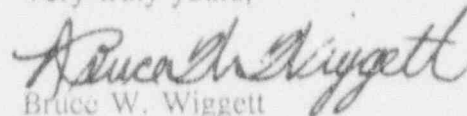

Dear Sir:

In accordance with the requirements of 10CFR 140.21(e); enclosed herewith are the annual cashflow statements for Vermont Yankee and each of Vermont Yankee's nine sponsor companies for the year 1991. This information is submitted as evidence that Vermont Yankee maintains an approved guarantee of payment should a \$10 million retrospective premium be assessed under the Price-Anderson Act.

Under the Power Contracts between Vermont Yankee and its nine sponsor companies, Vermont Yankee would bill retrospective premium assessments to its sponsors as part of the monthly Power Contract Billing. As such, the "Cost of Purchased Power" as expressed in the enclosed sponsor financial information has been adjusted to reflect the effect of including the maximum annual retrospective premium obligation for each sponsor company. Purchased power costs are paid for by our nine sponsor companies out of operating revenues rather than net income or sponsor financing and, as such, we suggest that each sponsor shown on the enclosed table has operating revenues which are more than adequate to pay a purchased power costs including the pro-rated minimum premium assessment.

Should you have any questions or require further information regarding this matter, please contact this office.

Very truly yours,

Bruce W. Wiggett
