Office of Nuclear Reactor Regulation

SUBJECT: Beaver Valley Power Station - Unit No. 2
Docket No. 50-412
Response to Outstanding Issue 70 of the Beaver Valley Power
Station Unit 2 Draft SER

Gentlemen:

The subject response is provided below:

Draft SER Section 7.5.2.3: NUREG-0737 Item II.D.3, Direct Indication of
Relief and Safety Valve Positions:

The information in FSAR Section 7.5 is inadequate for the staff's
review of this item. The applicant stated that the design is incom-
plete at this time. This item is open pending staff review of infor-
mation to be provided by the applicant when the design is finalized.

Response:

The system design has been completed. The information in FSAR Table
7.5-1 has been updated to reflect this (see Amendment 5). FSAR Table
1.10-1 will be changed to indicate that Beaver Valley now meets the
intent of this item.
