Region III
U.S. Nuclear Regulatory Commission

Dear Mr. Keppler:

Docket 50-305
Operating License DPR-43
Kewaunee Nuclear Power Plant
IE Bulletin 83-07: Apparently Fraudulent Products
Sold by Ray Miller, Inc.

References: Letter from C. W. Giesler of WPSC to Mr. J. G. Keppler of US NRC
dated March 30, 1984

In the above referenced letter we responded to IE Bulletin 83-07. In that response we failed to acknowledge the belated submittal date which was agreed upon with our Resident Inspector. The purpose of this submittal is to acknowledge the date and to revise the attachment to the initial bulletin response.

The attached sheets are submitted as an update to the above referenced letter. Changes are as follows: (1) a footnote has been added to line 9 to identify the system as safety-related, (2) information has been added to the remarks section of line 15, and lines 20 through 22, and (3) CMTR, C/PR, and LC have been defined in the legend.

Very truly yours,

C. W. Giesler
