Subject: Quad Cities Nuclear Power Station
Issuance of Renewed NPDES Permit
NRC Docket Nos. 50-254 and 50-265

Dear Mr. Davis:

Commonwealth Edison Company is the holder of National Pollutant Discharge Elimination System (NPDES) Permit No. IL0005037 for Quad Cities Station. Enclosed for your use and information is a copy of the renewed permit (IL0005037) which was issued on December 4, 1991 and became effective on January 3, 1992.

Please contact this office should further information be required.

Respectfully,

John L. Schrage
Nuclear Licensing Administrator

NPDES Permit No. IL0005037
Final Permit

December 4, 1991

Commonwealth Edison Company
Attn: Environmental Services
72 West Adams Street
Post Office Box 767
Chicago, Illinois 60690-0767

Gentlemen:

Attached is the final NPDES Permit for your discharge. The Permit as issued covers discharge limitations, monitoring, and reporting requirements. The failure of you to meet any portion of the Permit could result in civil and/or criminal penalties. The Illinois Environmental Protection Agency is ready and willing to assist you in interpreting any of the conditions of the Permit as they relate specifically to your discharge.

We are unable to revise Special Condition 16 as requested in your May 31, 1991 letter. We believe that two years should be a sufficient time to modify the permit, if continued bromine use is found to be appropriate.

The Permit as issued is effective as of the date indicated on the first page of the Permit. You have the right to appeal any condition of the Permit to the Illinois Pollution Control Board within a 30 day period following the issuance date.

Should you have questions concerning the Permit, please contact Tim Kluge at the telephone number indicated above.

Very truly yours,

Thomas G. McSwiggin, P.E.
Manager, Permit Section
Division of Water Pollution Control
