Re: Peach Bottom Atomic Power Station, Unit 3  
Docket No. 50-278

Dear Mr. Denton:

By letter dated May 30, 1984, we transmitted to you an Application for an Amendment of the Peach Bottom Unit 3 operating license which requested changes to the Peach Bottom Unit 3 Technical Specifications to permit operation with increased core flows. That filing referred to a certain document entitled "SAFETY REVIEW OF PEACH BOTTOM ATOMIC POWER STATION, UNIT NO. 3 AT CORE FLOW CONDITIONS ABOVE RATED FLOW THROUGHOUT CYCLE 6" (NEDC-30519) which was inadvertently not forwarded with the Application.

Accordingly, I am enclosing 22 copies of the document which we would appreciate your including in the May 30, 1984 filing. We regret any inconvenience this omission may have caused you.

Very truly yours,

  
Eugene J. Bradley
