

December 1991 Addenda

Date of Issue: December 17, 1991

NEBRASKA PUBLIC POWER DISTRICT
COOPER NUCLEAR STATION

INSERVICE INSPECTION PROGRAM FOR
ASME CLASS 1, 2, AND 3 COMPONENTS

Revision 3

This is an addenda to the loose-leaf version of the Inservice Inspection Program for ASME Class 1, 2, and 3 Components, Revision 3, and is issued in the form of replacement or additional pages, revisions, additions, or deletions, and are incorporated directly into the affected pages.

Summary of Changes:

This is the eleventh addenda to be published to the Inservice Inspection Program for ASME class 1, 2, and 3 components, Revision 3. This change affects the ASME Section XI section of the CNS ISI Program.

SECTION	PAGE(s)	DESCRIPTION
ASME Class 1 Categories Section	Tab B-G-2	Remove and destroy existing component listing pages and replace with attached new pages. Updates component listings to add CRD bolting to the ISI Program.
