SUBJECT: James A. FitzPatrick Nuclear Power Plant
Docket No. 50-333
Generic Letter 89-10
Safety Related Motor-Operated (MOV) Valve Testing and
Surveillance Program - Closure Notification Letter

REFERENCE: NRC Generic Letter 89-10, "Safety-Related Motor-Operated Valve
Testing and Surveillance," dated June 28, 1989

Dear Sir:

Pursuant to 10CFR50.54(F) and in accordance with Generic Letter (GL) 89-10, Item m, the Authority provides the required notification that the committed programmatic actions taken to address items a through h of GL 89-10 have been implemented at FitzPatrick. All committed actions have been completed and the valves are set up to achieve design basis operating requirements. The Authority continues to review new industry information to identify appropriate longer term operating margin enhancements.

The Authority looks forward to providing any support of your activities necessary to close GL 89-10 for FitzPatrick. Should there be any questions or comments with respect to this submittal, please contact Mr. A. Zaremba, Licensing Manager, at 315-349-6365.

Very Truly Yours,

A handwritten signature in dark ink, appearing to read 'William J. Cahill, Jr.'.
