Subject: Waterford 3 SES
Docket No. 50-382
License No. NPF-38
Supplement to Technical Specification Change Request
NPF-38-150

Gentlemen:

Waterford 3 proposed several changes to the Technical Specifications (TS) in support of the revised 10 CFR Part 20. The purpose of this letter is to request that the requirement associated with "measurement at one meter from the radiation source" for very high radiation areas be included in TS 6.12.2 as indicated in Attachment A. This requirement was inadvertently overlooked during our recent discussions.

This request is purely administrative in nature and has no impact on the previously provided determination of no significant hazards.
