CONDITION DETAILS

During a review of the above referenced audit report, it was noted that the use of pencil on records was considered acceptable if it were reproducible.

While this might be considered acceptable in one respect it could lead to other problems, and is not an advisable practice. It is recommended that records management establish a policy of accepting only BLACK INK on Quality records.

--------------------------------------	--	---

RESPONSE (SEE NOTE)

The following requirements will be incorporated into QAPP, 17-1, "Collection, Protection, Storage and Maintenance of Quality Assurance Records".

Quality records shall be generated by utilizing black ink. Exceptions to using black ink shall be approved by a supervisor of a Consumers Power document control center organization which microfilms quality records, on a case by case basis. In addition, the following practices should be followed:

1. Insofar as practicable, documentation shall be typed and arranged in a neat and professional manner.
2. Handwritten documents shall be legible and the contrast shall be such that every line, number, letter and character shall be clearly legible and suitable for microfilming.

QAPP Changes to be complete by June 28, 1984.

UNRESOLVED ITEM

AREA: MBOP-T DISCIP: T TREND: T-5 PRIORITY: 5 S/U: PGM00 AI: S04784

MIDLAND PROJECT
QUALITY ASSURANCE
DEPARTMENT

6. DESCRIPTION OF UNRESOLVED ITEM:

On the record copy of the Function System Turnover packages in DCC, it was noted that the packages contained documents with entries in pencil and red ink.

Although no mandatory requirement exists for using black ink for document entries, MP RMPP Manual, Proc. #PRM-11, Rev. 0, Para 8.1.4 states that black ink should be used.

7. REQUIRED ACTION:

1. Determine the acceptability of the use of pencil and red ink entries on documents within Functional System Turnover packages.

Records Mgmt.

8. ACTION REQUIRED FROM: P Mudd

9. ACTION REQUIRED BY-DATE:

3/14/84

10. RESPONSE TO URI:

Records Management is governred by ST 1502.1 for their control of records, not PRM 11. ST 1502.1 clearly spells out that records originators are responsible for submitting legible records to Records Management for reproduction. The acceptance of red ink and pencil varies with the hardness of the lead and the quality of the red pen. Therefore, we strongly recommend the use of black ink, however, if the pencil and red ink is clearly reproducible, it is acceptable.

Based on the above response, the AFR is considered closed.
