Reference: a) License No. DPR-28 (Docket No. 50-271)

Dear Sir:

Subject: **Fitness for Duty Program Data for the Period 1/1/95-6/30/95**

Pursuant to the provisions of 10 CFR 26.71, enclosed is the testing data and associated results for the Fitness for Duty Program at Vermont Yankee. The attached information includes both our corporate and plant locations as our program does not distinguish between the two sites but treats them as a single entity.

Also, provided as Attachment A, is the evaluation and analysis of the data for this same period.

We trust the enclosed information is adequate; however, should you have any questions please feel free to contact us.

Very truly yours,  
Vermont Yankee Nuclear Power Corporation

Robert J. Wanczyk

## ATTACHMENT A

### EVALUATION OF FFD DATA

1/1/95-6/30/95

#### FOR CAUSE TEST RESULTS

- There was one (1) for cause test administered during this evaluation period with negative results.

#### POSITIVE TEST RESULTS

- There were no positive test results during this period in our random testing program.

#### FOLLOW-UP TESTING PROGRAM

- One (1) individual remains in the Vermont Yankee follow-up testing program as a result of management referral based on behavior observation.

#### TEST RESULTS ASSESSMENT

- At the beginning of this evaluation period Vermont Yankee lowered the initial test cutoff level for Marijuana to 50 ng/ml.
- The test results for this period compared to previous periods indicate that Vermont Yankee continues to maintain an effective FFD program which ensures that the plant site remains a work environment free from the effects of drugs or alcohol. The only positive test results were recorded during pre-access screening. The program continues to serve as an effective deterrent to the use or introduction of drugs or alcohol in the work place. The results of this period are as expected during a period which includes a refueling outage.
