- c) Emergency Response Data System (ERDS) Implementation, NUREG 1394, Rev. 1, dated June, 1991

Dear Sir:

Subject: ERDS Link at Vermont Yankee

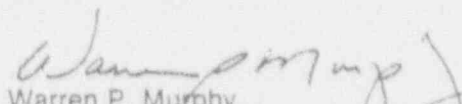

This letter is written to confirm that Vermont Yankee has completed the administrative implementation requirements of Reference c) and is prepared to utilize ERDS to transmit emergency data as required by 10CFR 50.72.

The appropriate Vermont Yankee Emergency Plan Implementing Procedures have been modified to activate ERDS as soon as possible within one hour of the declaration of an Alert or higher emergency classification. In addition, software configuration management controls have been implemented to assure the continuing quality of ERDS data.

We trust that this submittal is responsive to your request; however, in the event you may have any questions, please do not hesitate to call.

Very truly yours,

Vermont Yankee Nuclear Power Corporation

Warren P. Murphy
Senior Vice President, Operations
