August 24, 1995

US Nuclear Regulatory Commission
Research Reactor Section
Washington, DC 20555

Attn: Mr. Marvin Mendonca, Proj. Mgr.
AGN-201 at Idaho State University

Dear Mr. Mendonca:

This is to inform you that I will be leaving my position as Vice President of Academic Affairs at Idaho State University to return to the faculty of the College of Business. I will no longer be the university administrative contact for the Reactor License for the AGN-201. My successor as Vice President of Academic Affairs, Dr. Jonathan Lawson, will not assume his duties until mid September.

Hence, I recommend that the University administrative contact during this interim period be the dean of Engineering, Dr. Jay F. Kunze. He has considerable prior experience in reactor operation at the INEL, and most recently served on the Callaway Nuclear Power Plant Nuclear Safety Review Board for 11 years, and as the chair of the Reactor Safety Committee of the Missouri University Research Reactor (10 MW) for the last 8 years.

Thank you for your attention to this matter.

Sincerely,

Michael C. Gallagher
Vice President for
Academic Affairs

MCG:jd

cc: Dr. Alan Stephens, Reactor Administrator
Mr. R. David Clovis, Reactor Supervisor
Dr. Jay Kunze, Dean of Engineering
