Re: Request for Comments on the Compatibility
of Agreement States Programs With NRC
Regulatory Programs (56 Fed. Reg. 66457)

Dear Mr. Chilk:

On December 23, 1991, the U. S. Nuclear Regulatory Commission (NRC) published a notice requesting comments on the Compatibility of Agreement States Programs With NRC Regulatory Programs. These comments are submitted on behalf of Florida Power and Light Company (FPL), a licensed operator of two nuclear power plant units in Dade County, Florida and two units in St. Lucie County, Florida.

The Nuclear Management and Resources Council (NUMARC) is offering comments on the full range of issues raised by the Federal Register notice. FPL endorses the NUMARC comments and recommendations.

Edison Electric Institute/Utility Nuclear Waste and Transportation Program (EEI/UWASTE) is also providing comments with respect to the storage, treatment and disposal of low-level radioactive waste. FPL endorses the EEI/UWASTE comments and recommendations.

FPL appreciates the opportunity to submit these comments.

Very truly yours,

W. H. Bohlke
