Re: Commonwealth Edison Company  
(Byron Nuclear Station, Units 1 and 2)  
Docket Nos. 50-454 and 50-455

Dear Mike:

This will confirm our telephone conversation of this morning.

During the prehearing conference you informed me that all documents produced by you would be available either at Isham, Lincoln & Beale or at Sargent & Lundy. Acting on that information, we reviewed last week all documents produced at Isham's offices, which were represented to be all the documents you would be producing (with the exception of the Sargent & Lundy documents discussed below).

This morning you told me that there are approximately five more file drawers of documents, at the site, falling within the request. Because I have made arrangements to review the Sargent & Lundy documents the week of the 25th when I have a technical person to aid me in my review, you have agreed to make these available in Chicago the week of the 25th so that my technical reviewer may review them as well.

You also indicated you would try to get me an "informal" copy of your interrogatory responses sometime today and a formal response by Wednesday. I trust that holds true for your formal response to my request for the production of documents since, without your response, we cannot know whether you have produced all documents in each category, and to which requests, if any, you are objecting. The fact that this is holding up our preparation of our case -- not to mention our discovery of your case -- is obvious.

Please be advised that we may well need to seek an extension of, at a minimum, submission of Intervenor's prefiled testimony (if any), and possibly postponement of the commencement of the hearing itself.

Very truly yours,
