

1 me. And then the rest of the engineers report to the
2 supervisor.

DOCKETED
USNRC

3 Q At the time of the site area emergency of March
4 20th, 1990, within three days after that event the NRC sent
5 what is known as a confirmation of action letter to Georgia
6 Power putting a temporary hold on the return to criticality
7 of Unit One at Vogtle. Within two and a half, three weeks
8 of that point, March 23rd, there was a presentation at the
9 NRC offices here in Atlanta which, among other things, was
10 in support of a request to restart Plant Vogtle Unit One.

OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

11 Do you recall the circumstances surrounding the
12 preparation for those meetings and the preparation for the
13 April 9th letter that confirmed that meeting, John?

14 A That's kind of a broad question. But let me tell
15 you what I do recall with respect to the confirmation of
16 action letter and the preceding events. With res -- well,
17 in fact, let me back up just a little bit. With respect to
18 the preparation of the presentation at the NRC, the only
19 real involvement that I had in that was really superficial
20 as I was -- I got a call Friday^{(4/6/90) PM} night. Most of the
21 preparation was done over the weekend, it's my recollection.
22 And I got a call Friday night, probably 5:30, 6:00 from
23 George Bockhold asking me to have Gus Williams come out and
24 do the diesel counts for him and tell him what our current
25 diesel start counts were.

Docket No. EXHIBIT NO. II-182
In the matter of La. Power/Vogtle
☐ Staff ☐ Applicant ☒ Intervenor ☐ Other
☒ Identified ☒ Received ☐ Rejected Reporter WLU
Date 8-9-95 Witness MOSBAUGH

1 I informed him that I would be more than willing
2 to do that, but Gus generally doesn't do that even -- and I
3 think George called me because my group puts together the
4 monthly report that says this is how many starts we had on
5 the diesel and stuff like that. I said, "Gus doesn't do
6 that count. He gets it from engineering from Mike Horton's
7 people." And he said, "Well, I'll call Mike Horton then
8 and, you know, don't worry about it."

9 Q Okay.

10 A And that was basically the end of the
11 conversation. And I do know that he found -- and I don't
12 know how -- but he got -- ended up with Jimmy Paul Cash
13 coming out and helping him count. And that stuff was used
14 in the presentation.

15 Q Did you know at the time of that phone call that
16 his request for Gus Williams was to help him prepare his
17 presentation for the coming Monday?

18 A My recollection is that -- that he said that we
19 had to make a presentation to the NRC and that's why he
20 wanted the information.

21 Q Do you have any direct knowledge beyond about who
22 precipitated that Monday meeting, whether that meeting was
23 precipitated by the NRC or whether it was precipitated by
24 Georgia Power?

25 A No; I don't. At least I don't recall.

1 Q Do you have any recollection or do you know
2 whether that meeting had been scheduled and canceled and
3 rescheduled and canceled, anything like that?

4 A No; I don't recall, Larry.

5 Q Okay. And you may have answered this. Other than
6 the request from Mr. Bockhold for Gus Williams' assistance,
7 did you yourself provide any verbal or written input to Mr.
8 Bockhold for the April 9th oral presentation?

9 A Not directly. And I've really never reviewed in
10 detail everything that George presented at the NRC
11 presentation. I do know that I faxed up some information to
12 Jim Bailey concerning what was in the -- in the ^{GPC / A} event review
13 team's report, you know, as they were putting together
14 reports. Some preliminary information, I faxed up to Jim
15 Bailey.

16 And whether George used that or not I do not know.

17 Q That would have been in that general time frame
18 that you faxed that to Bailey?

19 A Yes.

20 Q I'll show you copies of the transparencies that
21 were used not only by Mr. Bockhold but evidently by Mr.
22 McCoy as it indicates on the first page here in the
23 presentation to Region Two and ask you to review them and
24 see if you recall them and recognize them. For the record,
25 this is a package of 12 copies of transparencies that were
