United States Nuclear Regulatory Commission
1717 H. Street NW
Washington, D.C. 20555

Dear Ms. Stevens,

Please be advised that archaeological reconnaissance of the Stamm Property (parcel 24W) located along the Commonwealth Edison Braidwood-to-Crete transmission line corridor has been completed and no sites were located. Coupled with our work at site 11Ka179 which is summarized in the report forwarded to you by Ben Barickman from Commonwealth Edison, the entire archaeological assessment of the transmission line is complete.

Should you have any questions please contact me at 217-785-0134.

Sincerely,

Michael D. Wiant
Associate Curator of Anthropology
