SUBJECT: ADDENDUM TO AP600 NOTRUMP PRELIMINARY VALIDATION REPORT
FOR SPES-2 TESTS, [PXS-GSR-004]

REFERENCE: N. J. Liparulo to T. R. Quay, "AP600 NOTRUMP Preliminary Validation Report
for SPES-2 Tests, July 1995, [PXS-GSR-002]," NTD-NRC-95-4501, July 7, 1995

Dear Mr. Quay:

Enclosed is a Westinghouse report documenting aspects of the AP600 analysis program. The enclosure includes:

1. Addendum to AP600 NOTRUMP Preliminary Validation Report for SPES-2 Tests, September 1995, [PXS-GSR-004]

This report is an addendum to the NOTRUMP Preliminary Validation Report for SPES-2 Tests [PXS-GSR-002]. It consists of a new Section 5.4, which supersedes the previous Section 5.4. The reason for this addendum is that test S00908, the double-ended guillotine cold leg balance line break, was a blind test for the preliminary report, i.e., the results were withheld until after the NOTRUMP analysis was complete and reported. Therefore, the previous Section 5.4 reported only the NOTRUMP analysis results. The new Section 5.4 reports both the NOTRUMP analysis results and the recently released test results.

This data report contains Westinghouse proprietary information and is identified as preliminary. This information will be incorporated in the Final Verification and Validation Report for the NOTRUMP computer code. With the publication of the final report, the preliminary identification will be removed and a non-proprietary version of the final report will be prepared.

The Westinghouse Electric Corporation copyright notice, proprietary information notice, application for withholding and affidavit are also attached.

EP04 1/1

September 12, 1995

This submittal contains Westinghouse proprietary information consisting of trade secrets, commercial information or financial information which we consider privileged or confidential pursuant to 10CFR2.790. The specific types of proprietary information contained in the report are identified in paragraphs (4)(ii)(a) and (4)(ii)(b) of the attached affidavit. Therefore, it is requested that the Westinghouse proprietary information attached hereto be handled on a confidential basis and be withheld from public disclosures.

This material is for your internal use only and may be used for the purpose for which it is submitted. It should not be otherwise used, disclosed, duplicated, or disseminated, in whole or in part, to any other person or organization outside the Commission, the Office of Nuclear Reactor Regulation, the Office of Nuclear Regulatory Research and the necessary subcontractors that have signed a proprietary non-disclosure agreement with Westinghouse without the express written approval of Westinghouse.

Correspondence with respect to the application for withholding should reference AW-95-879, and should be addressed to Brian A. McIntyre, Manager of Advanced Plant Safety and Licensing, Westinghouse Electric Corporation, P.O. Box 355, Pittsburgh, Pennsylvania, 15230-0355.

Please contact John C. Butler on (412) 374-5268 if you have any questions concerning this transmittal.

COPYRIGHT NOTICE

The reports transmitted herewith each bear a Westinghouse copyright notice. The NRC is permitted to make the number of copies of the information contained in these reports which are necessary for its internal use in connection with generic and plant-specific reviews and approvals as well as the issuance, denial, amendment, transfer, renewal, modification, suspension, revocation, or violation of a license, permit, order, or regulation subject to the requirements of 10 CFR 2.790 regarding restrictions on public disclosure to the extent such information has been identified as proprietary by Westinghouse, copyright protection notwithstanding. With respect to the non-proprietary versions of these reports, the NRC is permitted to make the number of copies beyond those necessary for its internal use which are necessary in order to have one copy available for public viewing in the appropriate docket files in the public document room in Washington, D.C. and in local public document rooms as may be required by NRC regulations if the number of copies submitted is insufficient for this purpose. Copies made by the NRC must include the copyright notice in all instances and the proprietary notice if the original was identified as proprietary.

PROPRIETARY INFORMATION NOTICE

Transmitted herewith are proprietary and/or non-proprietary versions of documents furnished to the NRC in connection with requests for generic and/or plant specific review and approval.

In order to conform to the requirements of 10 CFR 2.790 of the Commission's regulations concerning the protection of proprietary information so submitted to the NRC, the information which is proprietary in the proprietary versions is contained within brackets, and where the proprietary information has been deleted in the non-proprietary versions, only the brackets remain (the information that was contained within the brackets in the proprietary versions having been deleted). The justification for claiming the information so designated as proprietary is indicated in both versions by means of lower case letters (a) through (f) contained within parentheses located as a superscript immediately following the brackets enclosing each item of information being identified as proprietary or in the margin opposite such information. These lower case letters refer to the types of information Westinghouse customarily holds in confidence identified in Section (4)(ii)(a) through (4)(ii)(f) of the affidavit accompanying this transmittal pursuant to 10 CFR 2.790(b)(1).
