1991 FSAR Update

Gentlemen:

Pursuant to 10 CFR 50.4 and 50.71, please find enclosed an original and ten copies of the 1991 Final Safety Analysis Report (FSAR) update for McGuire Nuclear Station.

The McGuire FSAR was converted into an electronic publishing format just prior to initiating the 1991 revision cycle. Therefore, the enclosed FSAR is a complete reissue containing revisions effective up to May 1, 1991. Please discard any previous copies or ensure that previous copies are marked as superceded documents.

Revisions effective in the 1991 update are indicated by a "1" in the left-hand margin.

Our goal is to reduce the costs associated with the maintenance of numerous copies of the McGuire FSAR by providing access to an electronic format.

Identification of changes made under the provisions of 10CFR 50.59 are being sent under separate cover.

Very truly yours,

T. C. McMeekin
