CORPORATE NUCLEAR EMERGENCY PLAN

MONTICELLO NUCLEAR GENERATING PLANT  
Docket No. 50-263 License No. DPR-22

PRAIRIE ISLAND NUCLEAR GENERATING PLANT  
Docket Nos. 50-282 License Nos. DPR-42  
50-306 DPR-60

Furnished with this letter is a copy of Revision 18 to the NSP Corporate Nuclear Emergency Plan. This revision contains changes as a result of our annual internal review, update, and certification of emergency plans and agreements. As such, revisions to this plan have been reviewed and approved and do not decrease the effectiveness of this plan. Significant changes have been identified with the use of a vertical line in the margin.

It should be noted that the plant and Corporate Plans are companion documents. Each plan does not, by itself, address or reference all of the emergency planning requirements or guidance criteria. It is intended that the site plan covers site specific requirements and that the Corporate Plan covers off-site requirements and functions normally assigned to the corporate offices.

Instructions:

Replace the existing Emergency Plan pages with the attached revised pages. Destroy all superseded pages. Inventory plan sections with the current record of revision to ensure all are current. If discrepancies are discovered, contact Emergency and Site Planning Department for the resolution. Verify your manual number on the Acknowledgment of Receipt. SIGN THE ACKNOWLEDGMENT OF RECEIPT AND RETURN WITHIN TEN (10) WORKING DAYS.

Attached is the summary of revision 18 to the Corporate Nuclear Emergency Plan. If you have any questions regarding the revisions to or distribution of the plan, please contact Dave Kaiser at (612) 337-2087.

Gary Hudson, Manager  
Emergency and Site Planning  
ERAD
